

## FOREIGNERS WITH TEMPORARY 02 YEARS WORKING VISA :

foreigners with temporary working visa , can only bring HHG / PE duty free if

\* has been living in the same country goods are being exported.

\* contents of the shipment must be in accordance to size of the family, and financial situation. Goods which appear to have commercial use / purpose will be subject to import duties / confiscation. Consumer goods of any type will pay import duties.

OBS : Consignee has to sign a BOND ( Termo de Responsabilidade ) at customs that he'll move out of Brazil all the items imported ( even if broken / useless ).

NOTE : Regarding to AIR SHIPMENTS the Customs clearance process (Temporary Admission Regime) takes around 50-60 days to be completed, and the airport charges are high. So we strongly recommend the nationalization of goods (payment of import duties) in order to abbreviate the time spent in process (15-20 days), the airport charges are way lower. In the end the costs are very similar, however the time spent by nationalizing decreases significantly.
